In Their Own Words

Attending Konkuk was a truly memorable experience, and if you are considering studying at one of Seoul’s most popular universities, do it! Konkuk won’t disappoint you, and the friendly staff and students will ensure your life in Korea is an easy transition. One of the best things about being an exchange student at Konkuk was being able to make lifelong friends with not only Koreans but with other students from all over the world.

At Konkuk, you will always feel safe. Security around the dormitory and the campus is always tight.

Studying at Konkuk has given me global appreciation and a competitive edge professionally. It has been extremely beneficial for my career, and I hope to one day visit all the staff and students who made my experience so enjoyable.

The International Summer Program (ISP) was an opportunity for me to go to Seoul and study at Konkuk.

I really enjoyed the ISP and learned a lot about Korean culture. I met people from all over the world, and we shared great time together. South Korea is a very nice and interesting country, and we had the chance to discover it during the five weeks, especially on the field trips and in the cultural workshops.

Everything was well organized, and the Korean buddies were very friendly and always available for us. I will always have amazing and unforgettable memories of the ISP.
